WINDOWS 安装 M2Crypto for Python2.7

运行环境 WIN8.1 + Python2.7 + VS2008(Microsoft Visual C++ 9.0)

VS2008 可用 Microsoft Visual C++ Compiler for Python 2.7 代替

VC++ for Python 2.7: <http://aka.ms/vcpython27>

<http://landinghub.visualstudio.com/visual-cpp-build-tools>

VS2008: <https://stackoverflow.com/questions/17108102/download-and-install-visual-studio-2008>

追加环境变量 ;C:\Python27\;C:\Python27\scripts\

注意 python\VCForPython27.msi\M2Crypto 对应的位数，一般都装 32 位，

1. setuptools(easy_install) 的安装

下载 <https://pypi.python.org/pypi/setuptools#downloads>

执行 `python setup.py install`

WIN32 <https://pypi.python.org/pypi/setuptools/0.6c11>

2. `pip install M2CryptoWin32` 或者 `pip install --egg M2CryptoWin64`

`pip install wheel`

`pip install cryptography`

`pip install M2CryptoWin32`
